

Op amp buffer

Saturday, February 28, 2026 10:08 PM

$$V_o = -(A_{int}) \left(\frac{R_F}{R} \right)$$

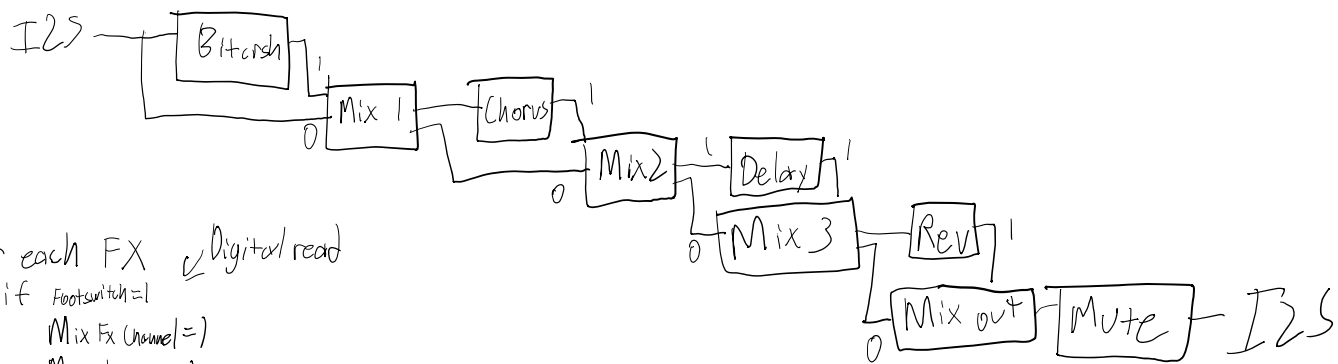

attenuate to $3 V_{pp} > V_o$

sym values so $\frac{R_f}{R} = \frac{R_o}{R_{in}}$ so $\sum \text{amp} = 0$

Program Outline

Saturday, February 28, 2026 10:57 PM

For each FX $\swarrow$ Digital/read

if Footswitch=1

Mix Fx channel=1

Mix clean=0

else

Mix F channel=0

Mix clean=1

use non-toggle

to adjust param

if adjust button=1

Run adjust func
